I have heard that Nassau County was planning to pass some really strict smoking ban for the whole county. I just thought I'd let you know and I wanted to find out if your group could get me some info on who all the elected officals are in Nassau County and how to reach them. I want them to know what I think of all this. (We will forward on as an alert, and ask that if Elizabeth Gallagher, the NY FC, has the info this gentleman needs, please pass it along to him. Thanks.)
